## TYPE TESTED PLUMBING PRODUCTS (WaterMark)

Expiry Date: 8 December 2018

Standard: ATS 5200.485 – 2006 – Technical Specification for Plumbing and Drainage Products –  
Pressure compensating tank

### Rinnai Australia Pty Ltd

7586      10.09      Rinnai Demand Duo Warm Water Unit for Operation as a Tempering  
and Thermostatic Mixing Valve  
DDWW32 (utilised with Siemens MXG461B15-0.6, MXG461B15-1.5,  
MXG461B15-3, MXG461B20-5, MXG461B25-8)  
DDWW50 (utilised with Siemens MXG461B32-12, MXG461B40-20)  
DDWW50 (utilised with Siemens MXG461B40-20, MXG461B50-30)  
Watermark Licence No. 60059, Level 1  
Expiry Date: 8 October 2014  
Standards: AS 4032.1 – 2005 – Water Supply – Valves for the control of heated water supply temperature –  
Thermostatic mixing valves – Materials design and performance requirements  
AS 4032.2 – 2005 - Amdt 2 - Water Supply – Valves for the control of hot water supply temperature –  
Tempering valves and end-of line temperature-actuated devices

### JOINTING MATERIALS

#### General

### Smartco Pty Ltd

7574      9.09      Smartco Copper-Phosphorous Brazing Alloy with 2% or 5% Silver  
SGWS2P - 2% Silver, Alloy designation B2  
SGWS5P - 5% Silver, Alloy designation B3  
WaterMark Licence No. 60017, Level 1  
Expiry Date: 1 September 2014  
Standard: ATS 5200.14 – 2004 - Technical Specification for Plumbing and Drainage Products –  
Jointing Materials

# DIRECTORY OF AGA CERTIFIED PRODUCTS

*September 2017 Edition*

ISSN 1328 – 2700

AGA PRODUCT CERTIFICATION SCHEME

[Please refer to AGA office for entry updates/queries]

**DIRECTORY - 2017**

## IMPORTANT MESSAGES

Whilst every care has been taken to ensure the accuracy of the contents of this Directory, it is important that Certificate Holders and Agents check their respective entries and advise the AGA of any errors and/or omissions.

The Directory is available *free* from the AGA website ([www.aga.asn.au](http://www.aga.asn.au)) and will be republished periodically throughout the year with appropriate changes included. The online Directory may be printed in full, or in part, if required. Please note that hard copies of the Directory are no longer available for purchase from AGA.

To assist in ensuring the accuracy of AGA records, would you please advise of any alterations or corrections by completing the following form and faxing this page to:

**Group Manager, Technical Operations - [office@aga.asn.au](mailto:office@aga.asn.au)**

### PLEASE NOTE CONTACT DETAILS:

## PREFACE

The Australian Gas Association (AGA) manages and operates accredited Product Certification Schemes, with funding largely provided by Certificate Holders through certification fees and badge sales. The AGA is an active participant in the standards writing process with representation on many *Standards Australia* committees that develop and publish the standards that underpin the Schemes.

In addition to product certification services for the electrical and plumbing industries, the AGA certifies gas product for the following categories or any combination of these categories:

- Natural Gas
- Town Gas
- Tempered Liquefied Petroleum Gas
- Liquefied Petroleum Gas

Approval for Liquefied Petroleum Gas appliances is divided into three sub-groups, designated as P (Propane), B (Butane) or U (Universal) gas.

### **Product Compliance:**

Product that has been certified by AGA to comply with the requirements of the relevant Code/Standard, is subject to the Rules Governing the Scheme and, if required under the Scheme, is subject to routine and regular audits to confirm continued compliance.

### **Directory Structure:**

AGA now certifies a variety of products, which are subject to one or more specific accredited type-tested schemes. This Directory lists current certificates grouped under the following headings:

- Type Tested Gas Products only
- Gas Cylinder Certification
- Disposable Gas Cartridges
- Test Stations Certification
- Type Tested Gas & Electrical Products (ie where the AGA Certificate covers an appliance assessed to both gas and electrical standards, eg a cooker with an electric oven and gas hotplates)
- Type Tested Electrical Products only (ie prescribed and non-prescribed articles)
- Type Tested Plumbing Products (WaterMark)

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | B/P= Mix Model Nomenclature: Example #DGE8FGS30\*\*\*\*

# - All models have a single Alpha character prefix representing the brand

A = Speed Queen (Retail), B = Ipso, L = Speed Queen (Homestyle), P = Primus, U = Unimac

\*Additional Characters are added to the model number to designate control, design revision,

 Model Key:

(L) - WALDORF Only (low splashback model variation)

(B) - WALDORF Only (optional 'Bold' model variation

with vitreous/porcelain enamelled front panels)

[ 1 ] - griddle section size (Blue Seal only)

A- 900mm wide griddle

B -600mm wide griddle

C- 300mm wide griddle

D - no griddle

[ 2 ] - griddle section size (Waldorf only)

9 - 900mm wide griddle

6 - 600mm wide griddle

3 - 300mm wide griddle

0 - no griddle

[ 3 ] - open burner options

- standard burner only

-F - with flame failure

-PF - with pilot and flame failure

Total Gas Consumption:

Open Burner: NG28Mj/h & LPG28Mj/h

Griddle Burner: NG21Mj/h & LPG21Mj/h

Oven Burner: NG30Mj/h & LPG30Mj/h

Standard: AS 4563 -2004

722L Series F X F  
DN15, DN20, DN25, DN32, DN40,  
DN50 1050 kPa  
Product Code: 72220, 72225,  
72230, 72235, 72240, 72245  
722T Series F X F  
DN15, DN20 1050 kPa  
Product Code: 72271, 72272  
728L Series M X F  
DN15, DN20 1050 kPa  
Product Code: 72820, 728725  
728T series M X F  
DN15, DN20 1050 kPa  
Product Code: 72871, 72872  
732L Series F X F  
DN15, DN20, DN25, DN32,  
DN40, DN50 1050 kPa  
Product Code: 73220, 73225,  
73230, 73235, 73240, 73245  
732T Series F X F  
DN15, DN20 1050 kPa  
Product Code: 73271, 73272  
733L Series M X F  
DN15, DN20 1050 kPa  
Product Code 73320, 73325  
733T Series M X F  
DN15, DN20 1050 kPa  
Product Code: 73371, 73372  
Union Ball Valve M X M  
DN15, DN20 1050 kPa  
Product Code: 72781, 72782  
725G Series F X F  
DN15, DN20 1050 kPa  
Product Code: 72550, 72555  
727G Series OD X OD  
DN15, DN20 1050 kPa  
Product Code: 72750, 72755  
Union Ball Valve M X M  
DN15, DN20 1050 kPa  
Product Code: 72701, 72702  
725Y Series F X F  
DN15, DN20 1050 kPa  
Product Code: 72520, 72525  
727Y Series OD X OD  
DN15, DN20 1050 kPa

**Yung Shen Gas Appliance Co Ltd** Cont'd ...  
**GLOBAL**

7977 5.13 Single Stage Non-Adjustable LPG  
 Low Pressure Regulator  
 Model 667  
 Inlet Pressure 250 - 1750 kPa  
 Outlet Pressure 2.75 kPa  
 Temperature Range: -20°C to 60°C  
 Capacity: 1kg/h

**Zhongshan GDA Gas Valve Co Ltd**  
**GDA**

7843 2.12 LPG Low Pressure Regulator  
 Model: GR-107E 1750 kPa  
 Outlet Pressure: 2.8 kPa  
 Capacity 2 kg/hr  
 Working Temperature Range: -20°C to 60°C  
 Standard: AS 4621 - 2004

**Zhongshan Ksun Hardware Production Co. Ltd**

8147 1.15 Ksun Hose and Regulator Assembly  
 RYPH01 (connected to Class A GP516  
 or ZY-02 hoses)  
 Outlet Pressure: 2.8 kPa  
 Flowrate: 0.4 to 2.0 kg/h  
 Temp: -20° to 60°C  
 RYPG101 (connected to Class C  
 GC516 hose or ZSHO-2 hoses)  
 Outlet Pressure: 61 kPa  
 Flowrate: 0.5 to 2.5 kg/h  
 Temp: -20° to 60°C  
 Standards: AS 4621 -2004 & AS/NZS 1869 - 2012

**MISCELLANEOUS LPG DEVICES**
